

# V2G Leaders Europe

November 20, 2025

## Leading projects in smart energy systems, mobility, or Edge computing infrastructure?

Join us at V2G Leaders Europe 2025—a premier event uniting stakeholders from energy, transport, and ICT to accelerate the deployment of interoperable Vehicle-to-Grid (V2G) solutions. Connect with industry leaders, EU policymakers, infrastructure providers, and tech innovators driving the future of V2G through cross-sector collaboration, open standards, and system convergence.

### Conference highlights

- ★ **Smart Charging:**  
Policy and Tech Readiness
- ★ **Energy–Mobility Blueprints**
- ★ **The Automotive Action Plan:**  
What's Next
- ★ **Harmonisation Across Domains and Standards**

We invite tech providers and collaborative EU projects in energy, mobility, and cloud-edge-IoT to showcase their work. Submit your proposal for a high-profile poster or interactive stakeholder workshop featuring:

**Deployment-ready V2G infrastructure**

**Showcase pilots on cloud-edge-IoT, energy, mobility**

**Platforms integrating energy & mobility systems**

**Cross-sector approaches to standardisation & policy alignment**

Be part of shaping Europe's next phase of V2G deployment. Share your innovations with a high-level audience of OEMs, DSOs, regulators, and EV solution providers. Gain visibility, forge partnerships, and influence the future of smart energy and mobility systems.

**Submit Your Expression of Interest for a high-profile networking poster or technology workshop:**

**DEADLINE 15 September 2025**

### Pricing and Formats

You can find more info on the back of this flyer

Successful applicants will be contacted by representatives from CEI-Sphere and OCEI to coordinate participation.
